Terralite is a range of granular marble coatings which are available in 2 grades, Terralite Fine and Terralite Coarse.

These products are used on both interior and exterior surfaces, depending upon the design detail the architect wishes to accentuate. Available in an extensive range of natural colours these products are often used as part of the Terraco ELF System or as a long life decorative coating applied onto cement plaster walls, concrete columns, feature walls made of gypsum board and many other substrates.

Terralite is backed by the Terraco International Quality Guarantee.
