OVERVIEW
Terraco Sprayplaster Washable is an acrylic based, low VOC, ready to use compound of inert filler materials, for use in wet areas such as kitchen and bathrooms. It gives a high quality, even surface for painting or other finishes. Terraco Sprayplaster Washable is suitable for both precast and conventional buildings. It can be applied to either new or old solid surfaces of pre-cast or fair-faced concrete, sand/cement render, fair-faced and leveled brickwork, gypsum board, etc. When used for finishing ceilings, the final coat may be left spray textured, in which case no further decoration is required. The finished Sprayplaster surface does not require priming before painting.

PROPERTIES
TERRACO Sprayplaster Washable is a ready to use compound, formulated from a selected blend of acrylic polymers and precisely graded fillers with the following properties:
- Low VOC
- Easy to use
- Does not flake off
- High adhesion power
- High coverage
- Quick drying
- Excellent adhesion
- Moisture resistance
- Vapour permeable

APPLICATION & CLEANING OF TOOLS
TERRACO Sprayplaster Washable is applied over Terraco Sprayplaster Basecoat by spray or trowel. If dilution is required use 2-3% clean water. Apply 2 coats of Terraco Sprayplaster Washable and level with a steel-edged spatula. The total thickness of Terraco Sprayplaster Washable should not exceed 3 mm. Allow approx. 6-8 hours drying time between coats.

Clean tools and equipment with water after use. Drying time depends on site condition.

HEALTH & SAFETY
Avoid prolonged contact with eyes and skin. For detailed information refer to relevant material safety data sheet.

PACKAGING & STORAGE
Sprayplaster Washable is supplied in 25kg plastic bags.

Store containers in a clean dry area protected from direct sunlight and extreme heat and cold. Unopened containers can be stored for 9 months. Use oldest material first.
