OVERVIEW

Terracoat Stain is a ready mixed pigmented coating designed for application as a topcoat for Terracoat Textured Coatings. It has excellent dirt pick-up resistance and is designed for use in areas where atmospheric pollution is a problem. Terraco Stain is a low profile coating imparting colour to the surface with minimum film build, thereby allowing the original granular appearance of the Terracoat to be maximized. Terracoat Stain is available in an attractive range of colours.

PROPERTIES

Terracoat Stain is formulated with pure acrylic resins, fade resistant pigments, film preservative to provide a tough weather resistant film with following properties.
- Excellent UV resistance
- Excellent dirt pick-up resistance
- Excellent fade resistance
- High opacity, low profile coating
- Attractive mid sheen finish
- Breathable film
- Easy-to-apply
- Environmentally friendly

AREAS OF USE

Terracoat Stain is designed for use as a topcoating for Terracoat Textured Coating where extra dirt pick-up resistance is required. It can be applied over pigmented and not-pigmented Terracoat. It can also be used as a renovation coating to overcoat old textured coating surfaces after proper pre-treatment.

PREPARATION OF SURFACE

New Terracoat Substrate:
Allow the Terracoat to dry for a period of 72 hours prior to application of Terracoat Stain. No priming is required.

Old textured surfaces:
Check surface for soundness and make good any damages. Remove any flaking material and apply fresh base texture. Clean surface with a soda/water solution and rinse with clean water. Treat any mould, fungus, algae with a sterilizing solution prior to application of a coat of Penetrating Primer.

APPLICATION & CLEANING OF TOOLS

Terracoat Stain is applied on new and old substrates in 2 coats, using spray, roller or brush. Clean tools and equipment with water after use.

HEALTH & SAFETY

Avoid prolonged contact with eyes and skin. For detailed information refer to relevant material safety data sheet.

PACKAGING & STORAGE

Terracoat Stain is supplied in 5kg and 20kg plastic pails.

Store containers in a clean dry area protected from direct sunlight and extreme heat and cold. Unopened containers can be stored for 12 months. Use oldest material first.
